Customer Reviews

This book is simple and straightforward and very loving. I bought it without being able to preview it and I'm glad I did. Each page is a different animal (dad and child) and a different phrase: My dad _____. Elephants: My dad walks with me. Dogs: My dad plays with me. Apes: My dad protects me. Possums; My dad hangs out with me. And so on, ending with the polar bears: My dad loves me! There are twelve pictures each spanning across two pages. The paintings are bright and colorful. The sentence pattern, animals, and colors will be very fun for a young child. Great little book.

I purchased this book at the recommendation of my five year old. When I asked him what we were to get his dad for Christmas he stated "A Dad and Me book, he really loves those!" This was the book he picked out for his dad last year. It is a hardback book with the thick pages. Cute story line and illustrations. I think it was well received because it was a book my son could read to his dad.

A cute book that's not too small and not too big. Not too wordy either, so good for toddlers. The

illustrations are good and the animals depicted throughout are adorably defined. I did not find an instance where the little animals had any gender assigned to them, so good for a girl or a boy, to be read by Daddy.

This is a really sweet book that I purchased for my then 4-month-old daughter to "give" to my husband on Father's Day this year. He was thrilled and loves reading it to her - it has become a special time for the two of them in the mornings. The book is really simple - shows parent (assume dads) animals and their babies with cute phrases like "my dad plays with me" and "my dad feeds me" etc.

This is a cute little board book, perfect for daddy to read to his little one! My husband loves to make the sounds of the different animals in the book as he reads it to our little guy! Great memories in the making!

I also have the "My Mom Loves Me" book and they are both sweet books. However, for the dad who isn't very emotive, this is an especially good book. It shows practical ways you can tell "my dad loves me" and gives a more "macho" man a way to express love to his child. Good buy!

This is a very simple book, and my son loves it when me or his dad read it to him. We act out the "my dad kisses me" and "my dad tickles me" pages, and he just cracks up. He's still too young to read it himself, but he definitely loves looking at the pictures and flipping through it on his own. We got it when my son was around 8 months (he's now 16 months), and it has still kept his interest.

This is another book recommended by a friend who read it to his infant daughter. I bought it for a friend whose baby is just about a year old and OH BOY!!! WAS THIS ONE A HIT!!! N. loves, loves, loves this book, and all of the animals are depicted in loving hugs, very sweet and special. Go for this one..
