Jim Butcher's The Dresden Files Omnibus

Synopsis

When criminal investigations take a weird turn, the officers of the Chicago Police Department call in Harry Dresden! A wizard and private investigator with formidable yet unrefined skills, the young Dresden is more than capable of tracking down and facing the perps, whether they be black magic practitioners, blood-hungry werewolves, or worse! This first volume of The Dresden Files Omnibus collects three complete comic book story arcs, including the exclusive-for-comics tale, "Welcome to the Jungle", the adaptations of the universe-defining "Storm Front" and "Fool Moon" novels, plus additional content set within official continuity of Jim Butcher's beloved magic noir universe.

Customer Reviews

I have been read The Dresden Files novels and enjoyed them immensely, and knew of the graphic novels, but waited for this omnibus to test the waters. I was pleasantly surprised at how well the books translated into the realm graphic novels. It's interesting to see different artists' takes on the characters I have come to know and love. Also, for the sheer size of this omnibus compared to the prices of other graphic novels of equal size, this is a great deal. If you are a fan of the books, I highly

recommend it. If you are looking for a new comic to fully immerse yourself in, I still highly recommend it. It is a modern world steeped with hidden magics and terrors, not to mention some great dialogue and banter.

First, I am a big fan of Jim Butcher's work. (e.g. We just went to Dragon Con 2016 to listen to him on panels). So I may be biased in my comments....PROGreat artwork and good story that feels right inlined with Jim's Dresden World. My guess if you like Jim's work you will love the stories.CONTechnical Issue. Using Kindle on a Apple 27" iMAC to view / read the series has found so far concern with readability. For pages set Horizontal vs Vertical (e.g. Locations 70 and 133) the story print text is too small to read full screen on a 27" iMAC monitor ... The print is clean so a magnifying glass can let you read it but not for me with 20/20SUMMARYI love it .. outside the reading issue

Follows the books closely enough that hardcore fans won't be disappointed. Awesome artwork. Minus 1 star due to lame DRM. Let's face it Kindle is almost as bad a comic reader as Nook. So being forced to use Kindle by the DRM (or having to go through the hassle of breaking the DRM - just saying...) bites wind.

I'm genrally not a fan of the comic/graphics novel medium but this one took me by surprise and stuck to the source material.

Have the books this graphics novel was based on, and loved seeing the artwork in this book

Great stories I'd love to read more. I was a fan of the show as well.

Nice looking printing. Much larger then I expected.

Love Jim Butcher and the Dresden Files
