## Customer Reviews

Great way to introduce reading to my four year old. These sight words correspond with a lot of the early reader books. The pictures and word arrangements are excellent. The one thing I would change is the font to represent more of what a child would write, for instance the "g" and the "a" are in a font not learned by a child so it's confusing.

Easy to understand by my 4 year old son... love it.... he can read it now.. he love reading books..

I liked the story selections. The pictures were very motivating. Young children want to read and reread the stories over and over.

My son is learning to read, and these really are great for that. It has helped him so much with his reading. Definitely worth it.

I loaded this book on my cell phone and my grand daughter kept going back to it until she was able to read the entire book. She loved to swipe through the sight words as fast as she could; and had a sense of accomplishment when she was able to read the stories.

My daughter had no desire to read until we did this on my tablet. The exercises built her confidence and now she is excited about reading. I am so glad we came across this, it has been such a blessing.

I bought this kindle version Ebook, but I have no idea to download it to my Kindle in my iPad. How should I solve this problem? I also can't see it in my iPhone's kindle reader. Thanks.

My granddaughter has completed kindergarten but is in a prefirst class reviewing kindergarten and reading first grade first semester. This book was excellent for review and repetition of sight words. Great reader.
