Customer Reviews

My daughter is nearly ten now, and at a reading level well past these early reader chapter books, but when she heard that there were two new books in this series she hadn't read yet, she asked if

we could get them. Judy Moody inspires that kind of interest, with humor both kids and adults can enjoy, and characters with whom kids can really identify. Judy is a passionate, intelligent girl who cares about the world around her, but sometimes finds herself in a bit of a mess. She loves her brother, nicknamed Stink, though they often drive each other crazy in ways that will be familiar to any family. These first three books in the series are inventive and sweet, and offer an enjoyable kids-eye view of school. It's great to have them together in an affordable collection -- I'm getting it for my 7-year-old niece.

My daughter is six and is frustrated that as she gets older the books have less pictures and are not as fun to read (her own words). She hasn't put this book set down yet. She has one that she's reading and walks around with the other two all day long. It's a beginner chapter book so not difficult to read, pictures are peppered throughout and she likes that and most of all, the books are funny. She reads and laughs throughout the day - totally engaged. I'm so happy I found a book series that she likes better than watching TV. Now I have to find something similar for my 8 year old...

I really like these books - they are great for little girls of any age. I read them to my 4 year old and she giggles at all the silly things Judy Moody says. My 8 year old niece is about the right age to read these by herself, with a little help. Cute stories!

I bought this for my niece, who just turned eight. This is her first chapter book and she is really enjoying it. Judy can be a little 'moody' and up to no good at times. I explained that Judy is a character, not real, like many of the characters on her favorite tv shows. I told to enjoy the humor of the stories, but to not actually behave like her. She understood and is really enjoying the stories. And is very excited to tell her teacher that she read her first chapter book while on holiday break.

I purchased these for my 8 year old niece for Christmas and she just loves them. She loves chapter books and so these gave her more reading material appropriate for her age. She reads them well and enjoys the humor. It helps make reading fun and give her incentive to read more.

These are the perfect Chapter Books to get you 8 year old girl engaged with reading! She loves these books! They are well written with a good balance between difficult words and easy words for this age group. Just enough to expand their vocabulary and improve reading skills while not so

much to disinterest them. Plus the characters and stories are very engaging for her!

This set was purchased as a Christmas gift for my 9 yr old granddaughter. She loves the Judy Moody series and had already read these but was excited to read them again. Her 7 yr old sister is looking forward to reading them when she's finished.

It's a great collection- 3 books in one, so it does come out cheaper than buying the books individually. My 6 year old enjoys reading the Judy Moody series and has declared that she prefers it over the Rainbow Magic series of books which is the same plot over and over.
