Easy to follow and an easy read. A good background on how Naturally Speaking works. Keep it handy for easy reference.

The owners manual for NaturallySpeaking. This book will take the reader from beginner to pro. I

highly suggest anyone new to this software use this as a guide.

Great introduction- Got me (a rank amateur) to begin to use Dragon NS within hours of shipment arrival. Delighted with magical results.

The author explained in pretty clear terms how to make use of "Dragon Naturally Speaking." Much easier to comprehend than the manual.pdf that came with the program.

this book is necessary if you use dragon naturally speaking. It gives you much more than the dragon program does

This book help me out of quite a few problems that I encountered while working with the Dragon Naturally Speaking Program. I keep this book close by when I am in this program. Thanks.

What can I say. Great book, easy to follow, lots of good information that is not easily found in the Dragon Speak software documentation.Well worth the price!

As an easily overwhelmed and confused "newbee", this series and this installment have been great atinstruction for the technologically inept.
