# Star Wars Workbook: 2nd Grade Writing

## Synopsis

The Force is strong with this series! Introducing a line of workbooks that marries the iconic popularity of Star Wars with the unique mix of editorial quality, fun presentation, and rigorous educational standards that Workman applied to the BRAIN QUEST Workbooks. Twelve titles launch the series—three each for Pre-K through 2nd Grade—and dig deep into core subjects, including numbers, ABCs, phonics, and reading readiness for younger grades, and math, reading, and writing for the older ones. The material, which aligns with national Common Core State Standards, is designed to reinforce essential concepts and lessons taught in schools. Any child, not just fans of Star Wars—but yes, those fans will be especially delighted (as will reluctant learners)—will love the *Anakin* approach to phonics. Kids will practice learning numbers by counting and circling X-wing starfighters and clone troopers. Master place values by sorting groups of Wookiees. There are math problems: Yoda is holding 7 lightsabers. 5 of the lightsabers are blue. The rest are green. How many green lightsabers is he holding? And Language Arts: Circle the correct homophone in this sentence: Luke is a Jedi knight/night. Featuring favorite characters like Luke Skywalker, Queen Amidala, Yoda, and Obi-Wan Kenobi, and other creatures, monsters, Jedi, and Sith, the workbooks are filled with thousands of original illustrations drawing from all six Star Wars movies and the expanded Star Wars universe. Learn well, you will.

## Book Information

Series: Star Wars Workbook

Paperback: 96 pages

Publisher: Workman Publishing Company; Csm Wkb edition (June 17, 2014)

Language: English

ISBN-10: 0761178139

ISBN-13: 978-0761178132

Product Dimensions: 8.2 x 0.2 x 11.8 inches

Shipping Weight: 8.8 ounces (View shipping rates and policies)

Average Customer Review: 4.8 out of 5 stars [See all reviews](#) (54 customer reviews)

Best Sellers Rank: #15,332 in Books (See Top 100 in Books) #47 in [Books > Children's Books > Education & Reference > Study Aids > Children's General Study Aids](#) #112 in [Books > Children's Books > Education & Reference > Reading & Writing](#) #480 in [Books > Children's Books > Activities, Crafts & Games > Activity Books](#)

Age Range: 7 - 8 years

Grade Level: 2 and up

## Customer Reviews

We have used this book for some summer writing practice he will not be in 2nd grade until the fall, so it was a perfect book to give him a head start. The second half of the book is cursive so we are waiting until the week before school starts and use that portion as an intro for him. Highly recommend.

My 2nd grader LOVES Star Wars, but is a reluctant writer and would prefer to respond verbally than to write. This was an excellent way to use his interest to make writing more bearable for him. The workbook started with very simplistic tasks and built up to writing more lengthy passages. In addition to writing, some tasks explored parts of speech and vocabulary. I only wish the workbook were a little more challenging (my son writes well, he just hates to do it and is capable of more than the workbook demanded of him), however, the level is appropriate for most second graders.

My kids love these books. I am so glad I found these and got them. They are having so much fun learning and they are such fun books. I totally recommend these to other homeschoolers or just parents/teachers who want their kids to have fun learning.

My seven year old loves this book. To be honest he loves drawing the pictures more than the writing, but the pictures prompt him to write and he comes up with some pretty creative stuff. One activity flows smoothly into another. In one section you practice writing action words, then you draw four pictures of droids you invent, then you write a sentence about each droid using the action word that you practiced writing on the previous page. Very well thought out and put together!

This book is perfect for our huge Star Wars fan! He has never liked any workbooks in his life, but (we homeschool) he came to me after a few weeks off of school for the summer and asked to do "school" so I ordered this and the math one. He loves it and I love that he is doing schoolwork without me pulling my hair out. Has a great variety of things from writing that is perfect for the age group!

I bought all the 1st and 2nd grade books for my son, he had a very, very bad year in kindergarten and now getting him motivated to do any kind of learning is very difficult. However, these books are

easy for him to read and understand, he only needs a little guidance sometimes. He loves that they are Star Wars characters, and I love that he asks me if he can do his workbooks. I also took his book one step further and ripped the pages out and put them into page protectors and a 3 ring binder so that he can do the pages over and over, and I can use them for my other kids when they are ready to.

Bought a few of these across subjects and ages. I found each of them to be age-appropriate and really fun for my kids! One of my kids sat and did the entire workbook without a break...of course I never mentioned that it was educational, either. :)

My first grader hates to write and I have been looking for ways to stimulate him. He really enjoyed this book and he has been picking it up on his own, without my prompting, to write in it. I found it an effective tool.
