Case Endings and Rules

- Stems ending in α or η are in the first declension, stems ending in ω are in the second, and consonantal stems are in the third.
- Every neuter word has the same form in the nominative and accusative.
- Almost all neuter words end in α in the nominative and accusative plural.
- In the dative singular, the ς subscript is possible (because α is a subscript only under a vowel—in which case the vowel lengthens—in subscripts only in the first and second declensions.)
- Vowels often change their length ("breath")
- In the genitive and dative, the masculine and neuter will always be identical.
- The Square of Steps

Genitive	ος	ου	ου
Nominative	ος	ου	ου
Dative	ου	ου	ου

- Labials + σ form πc unless plus η form ς; dental's plus η form σc.
- Α ς cannot stand at the end of a word and will drop off (σπαρσ = σπαρσ).

This is great to keep me from having to constantly flip back in the book for memorization purposes. I've found, the more available something is, the easier it is to memorize. I didn't read the other reviews, so I'm not sure if others listed what was in this, but here are the contents: Front page: Greek Alphabet Case Endings and 8 Noun Rules Definite Article, Relative Pronoun First and Second Declension Nouns Preposition diagram Second page: Personal Pronouns, Demonstrative, Interrogative, Indefinite Relative Adjectives Third Declension Master Personal Ending Chart Master Verb Chart 3 Verbal Root Patterns Third page: Indicative Master Nonindicative Verb Chart Contract Verbs Liquid Indicative Overview of Subjunctive Fourth (back) page: Principle Parts of Common

This has proved to be an affordable, but extremely valuable study tool for Greek Grammar class. It has most everything important that's needed for quick reference. There are a few things that I would have liked to have seen on it also, but overall I was very pleased with this study tool.

The tool is very useful in helping me remember and review my tenses. This will be particularly useful for visual learners because the endings and augments are color coded. I labored to try to create my own cheat sheet but this was way better and saved me lots of time. That being said, when I had this shipped to me, it was not included with any stiff cardboard or anything keeping it flat, so it arrived with a few crinkles. The study aid is great, but the creases don't allow it to lay flat and is generally annoying for the OCD type.

This is a wonderful way to quickly recall important points about New Testament Greek without feeling like you are cheating. It is a great reference guide that is pre-punched and fits easily into a notebook for easy and quick reference.

This is a helpful, portable chart, more appealing & clearer to read than the Quickstudy Guide Latin chart, its opposite number. It matches the Mounce grammar books, but a much better book to learn N.T. Greek as well as an intro to Attic is: "The Elements of New Testament Greek, Third Edition" (Book and Audio CD) by Jeremy Duff. This however does not have a companion chart, hence the need for this chart. So you might as well get it.

when i first bought this it was PRE Greek 1. It was a jumble of senseless tables. By the time I finished Greek 2 i could whip out this chart prior to a quiz and use it to review for just about everything we'd studied. Great resource.

I used this with Mounce's beginning Greek book in order to pass a Greek entrance exam to get into school. I did not use the sheet very much at the beginning, but once I hit verbs, and especially when I started reviewing for my test, I found this to be helpful. It was nice to have everything on one sheet without having to flip through the book trying to find a form or a paradigm. I reviewed this sheet the day of my test, and I passed the test! I don't think this is indispensable to learning Greek, but it was useful, and I was glad I had it.

As a newbie to Greek, I had written dozens of little notecards with lots of hints and helps which were strewn all over my work surface. Once I got this study guide, I was able to file all of them. What a tremendous help! Thank you, Dr. Mounce!
