# Attack On Titan 15

## Synopsis

FUGITIVES AND PRISONERS Hange's interrogation of a Military Police squad has revealed that Krista (a.k.a. Historia Reiss) is the true heir to the throne. The Corps quickly moves to enthrone her as queen, but a homicidal MP leads a squad that abducts Eren and Krista and throws the Corps into disarray. With Erwin arrested and the Survey Corps on the edge of dissolution, are Levi and Hange finally out of options?

## Customer Reviews

I really do believe that this is one of the best series I have ever read. That being said, I don't think this one slows down at all. The scenes are fast moving, even though there isn't any huge action here per se. Most of this book deals with how the survey corps plan to get out of the mess they are in, and not with Eren. That alone made me happy that they could focus on others besides the main three and still have a great book. This is a true testament to the character development of the stories. The scenes in this book are all very intelligent and well written, with you wanting to see what the next line of dialogue is, since it is all dripping with content. Finally, the last few pages deal a huge solution to one of the series biggest questions. The implications of what lies within the last few pages are gigantic for the series, and it just makes me curious as to how on earth Isayama is going to explain what has happened. Overall, great read and am a huge fan of the series!

Secrets revealed!? This is the best AOT book ( until Volume 16) Which is coming this summer!

If I'm honest, this isn't the best volume I've read so far. As I read through this series, there are these points where you get WAY more questions than answers, this is one of those points. There are a few loose ends tied up but I'm left scratching my head. Anyway, you're not going to read it unless you've read the others first anyway so what are you doing here! go get the first one! lol.

The last few issues have been an extended set up to something major. They include just enough intrigue to keep the reader wanting the next issue without cheating them too much with nothing of substance happening. That is to say that something significant did in fact happen here, but not what we were looking for.

~4/5 There's a lot less titan action here, and instead a lot more human political drama. Not complaining, mind you. Levi and the group are figuring s\*\*\* out. They're figuring out who took Eren and Krista, and where they are. They're getting all the political s\*\*\* done, threatening people, beating people up. It's very bloody at points, and this series does not hold back. Then we get to see Eren and Krista, and there's an odd moment for Krista, but then a surprise with Eren. I'm not quite sure what he's seeing or where it's coming from. But it's bringing about possible answers about Eren's father and the key he got, and so I'm excited about that. That's a story line I'm really intrigued to see where it goes. I love this series. It's exciting and surprising and violent. I cannot wait for the next volume. The next two volumes are also going to be special editions, so I'm ecstatic for those. [More of my reviews are available on my blog, Geeky Reading, to which there's a link on my profile.]

Absolutely amazing story and the end of this volume was just great. We get a lot of history on Eren and Historia, as well as a brief history on how the walls were built as well as some history on Kenny the ripper. The war between the survey corps and the mps comes to an awesome conclusion and there's a little bit of action on this one. All together it was a great read.

What a great cliffhanger! I'm so anxious for this season 2 to finally come out (supposedly 2016)!

This series is as excellent as ever and Volume 16 could not come sooner! This book focuses on the Survey Corps struggle to prove that the power put behind the crown is not worthy to rule it's people. As things start to spiral into chaos, many hidden truths are revealed, as we are told the story from a

new perspective and see yet again why it is so pivotal that Eren must find that basement.
