This is another miniseries from Marvel. I've really enjoyed the focuses on different characters. This one lets Lando take the lead. The art in this graphic novel doesn't feel very Star Wars to me. I like it, but it just doesn't have that classic feel to it. The designs of the aliens feels off as well. The Sith Infiltrator appears in this series. I always like when prequel era blends into the original trilogy. The bounty hunters of the Star Wars universe have always been cool. This series introduces some more mercenaries. The feline duo is interesting. Lobot has such a small, but present role in The Empire Strike Back. It's neat to see more of his history. This book has a surprisingly emotional ending. This miniseries really got Lando as a character. I loved the way he used the blaster towards the end. I

wasn't hooked from the start, but the writing really pulled me in. By the end, I wanted more! I give Lando a 4/5. I'm excited for more Star Wars from Charles Soule. He is doing the upcoming Poe Dameron comic.

I have been a fan of Lando and of course Alex Marvlee and Charles Soule and what a winning combination here. Taking place after A New Hope, we see the life of Lando Calrissian in a very entertaining and fun light. The use of Lobobot and how Lando ended up on the wrong side of the Empire previously to Empires Strikes Back is well written. I highly recommend this book for any Star Wars Fan.

I loved this story! I've read most of (still have Chewbacca, Vader Down, and Vader vol 2) the comics for the new Star Wars canon. Until now, Vader was my favorite, Lando has now surpassed Vader. The story is exciting, with a bit of danger and mystery. I wish we had more information on some of the objects that Lando found on the ship, but I appreciate that they leave that mystery open. I went into this book not expecting much, and it came out as #1 in my collection so far! Great writing, great art, they even have the ignition sound of lightsabers in this book, which is something that, for some reason, the other comics ignore. Excellent all around!

One of the greatest graphic novels I have EVER read. I am truly sad that this is not an ongoing series. The art is perfect with writing that kept the book in my hands from start to finish. Even has an ending to make your heart hurt ! (in a good way).

One of the best Star Wars comic stories ever written in my opinion. It takes an interesting character in Lando Calrissian and places him into a great and unique situation in the heist he has to commit. The story really evokes the feel of the great Lando adventures stories from the 90's in a modern comic format.

I thought it was a great comic that felt consistent to Lando's character while also adding to it. It also provides some interesting information about some other characters. It has a different feel than the other Star Wars comics but in a good way. The change aligns with Lando's character. All in all, it was an interesting comic and anyone interested in Lando should check it out.

I'm not really a huge fan of Lando so I sorta bought this comic on a whim. I definitely don't regret it

as this was a great comic. Very entertaining story with some amazing art. Highly recommended for any Star Wars fan!

One of the best Star Wars comics I've read. Well rounded and fast paced story that has a little bit of everything: character backstory for Lobot, some great new characters, and even some new info on Palpatine and the Sith.
