Customer Reviews

I've never really read much in the way of Westerns, I'm usually more of a Horror/Fantasy/Science Fiction reader. Early Trails was a great introduction for me to the genre, I really enjoyed the stories, and they kept my attention. In particular I really liked the Shining Eyes stories, and would love to read more with those characters.

This is a wonderful collection of short stories. Mr. Dennison is a gifted author who crafts words into stories with great character development, and believable plots that left me wishing that each of them was a full-length novel. As I've stated before in another review of Brad's work, I'm not a true fan of the western genre, but his stories are so well-crafted that it makes me ignore my personal preferences. I would recommend this collection and anything written by this author. Very well done, Brad. Kudos!

I have now read this book and another book by Brad Dennison and his writing ability is up there among the best. When you can't put a book down for a while and have to finish it you know it is good. I was looking for new writers and I found a good one.

Short stories written by an awesome up and coming author. His writing keeps me wanting more stories, and novels. This book of short stories made me want to read more of each story. Hopefully there will be some sequels in the future.

I haven't read short Stories in a long time. Having been waiting a long time for Dennison's next book, I wasted no time reading it. There is a wide variety of subject matter in this book of short stories, Western. The stories are interesting to read, and the language is clean. These stories are suitable for a wide age range. Happy reading!

Mr. Dennison is a wonderful story teller. We are fortunate he kept these stories so we could read them now. Perseverance has given us the opportunity to enjoy some good reading. Thanks and keep on writing.

I've been reading the McCabe series and was quite taken with all the characters. And decided to read the Early Trails and I was not disappointed. Good job. I'm glad you had the chance to publish your earlier writings. I love these characters maybe you could indulge us with a rewrite of shinning eyes with a beginning starting when the brothers were fourteen and joined the Indians.

Each little story makes you want a 300 page book with the same story line. They start off and the first thing you know you are hooked. And then another story starts. Darn ! They are all good plots. Come on Brad, give us more.
