Dragonology: The Complete Book Of Dragons (Ologies)

Synopsis

For true believers only, a lavishly illustrated reproduction of a legendary volume by the world's most distinguished dragonologist. Don't let it fall into the wrong hands! Do you believe in dragons? Now, for the first time, the long-lost research of renowned nineteenth century dragonologist Dr. Ernest Drake is presented in all its eccentric glory, happily bridging the gap between dragon legend and fact. The meticulous Dr. Drake assigns Latin names to various dragon species, ruminates on why dragons are able to speak, speculates on how they could fly, and explains the true purpose of their notorious hoarding habits. Here are just a few of DRAGONOLOGY'S fascinating features:

- Novelty item on every spread, including tactile samples of dragon wings, dragon scales, and dragon skin
- Booklet of dragon riddles (indispensable to the burgeoning dragonologist)
- Sealed envelope containing a powerful dragon-calling spell
- Embossed faux leather cover with silver foil, encrusted with three dragon gems

In his afterword, Dr. Drake reveals that one of the crucial goals of dragonologists is to preserve the magnificent creatures of their study wherever possible - a goal this tongue-in-cheek volume most affectionately achieves. An incomparable gift for secret dragonologists everywhere!

Book Information

Lexile Measure: 1220L (What's this?)

Series: Ologies

Hardcover: 32 pages

Publisher: Candlewick (October 13, 2003)

Language: English

ISBN-10: 0763623296

ISBN-13: 978-0763623296

Product Dimensions: 10.3 x 0.9 x 12.1 inches

Shipping Weight: 2.1 pounds (View shipping rates and policies)

Average Customer Review: 4.9 out of 5 stars [See all reviews](#) (508 customer reviews)

Age Range: 8 - 12 years

Grade Level: 3 - 7

Customer Reviews

Ever wonder why Smaug hoarded all that treasure? Apparently it was just to impress the lady dragons. That's only one detail of "Dr. Ernest Drake's Dragonology: The Complete Book of Dragons," a faux-scholarly book that gives intricate details to the legendary beasts. (The actual author is Dugald A. Steer). Without robbing dragons of their mystique, we get an overview of them: there are intricate studies of the different kinds of dragons, from the Eastern lung to the Australian marsupial (which is a bit too silly for the tongue-in-cheek tone of the book). "Dr. Drake" also examines their habits, such as courtship rituals and parenting, as well as the biological means by which they spew flames, and the reason why they hoard gems. He also gives quite a bit of advice for the budding dragonologist, ranging from the obscure (hide shiny objects from baby dragons) to the ordinary (wear fireproof clothing). Finally, there is a historical overview of famous dragonologists from around the world, and spells that assist them. Dragons are a staple of legend and literature, although a neglected one. Though "Dragonology" is presented as a serious work, Steer never forgets to keep his tongue in cheek. It's a fun read, with lots of detail and thought -- after all, it can't be easy to document the physiology of a beast that doesn't, technically, exist. Taken on its own, the book might merely be cute. But Steer also includes little details like a faux library card belonging to Ernest Drake, a little letter enclosed in a special envelope, and an inscription on the inner front cover: "To Friendly Dragons" followed by a bunch of Tolkienesque runes. And the illustrations are as much a part as the faux-scholarly text.
