THIS REVIEW CONTAINS SPOILERSI have read all three books in the series and I am a big fan on the story.I do have to say though that this book seemed rushed. The others were written a bit

better than this one. Mattie has always bordered on a Mary-Sue like character but this one really cinched it. My biggest complaint is how rushed everything feels. There are random character facts tossed in carelessly between dialogue because it seems like the author realized she forgot to really explain the characters to us so they're sprinkled in randomly. There's no flow. One second she is at home with everybody, goes to her room to relax where she has a brief conversation with Silas, and suddenly everybody is gone and Mrs Cross is at work working the night shift? Did a few hours pass? They get into a boat and chat for a few sentences and suddenly they're so far away from land it will take 20 minutes to get to a public dock? When did this happen? Mattie is portrayed as this rough tough girl but is constantly letting men control her life. She ends up in the hospital 3-4 times and in the span of a couple of days hits her head over and over and it seems overdone. You need to better define your characters personalities. Is Mattie a tough woman or a scared little girl? She supposedly is a loner but keeps forming these instant bonds with only hot men. She allows a man to call her mine repeatedly which, admittedly made the feminist in me almost put the book down right there. You say she's a take no s*** type person but she constantly needs rescuing by literal knights without the shining armor. Even Mary is now starting to read the same as Mattie, a tough spunky girl who can communicate with ghosts in some way.

I'm just speechless now. That was how I am feeling now when I finished the book. I originally thought it would be a trilogy, but it turned out not. In some ways, I'm glad it wasn't over, but in other way, I probably would prefer it to be completed. But the truth is...I don't want to let this story go, at least not yet. This book taught me so much about Mattie and where she came from. Who her family was too. The ending had me freaking out! More surprises that had my jaw dropped. This was the best out of three so far. Mattie had grown up and realized who she truly was. There was more than just a reaper. She was something else as well, but I still didn't know what it would be. I wasn't too sure about the relationship going on between Mattie and Eli. It wasn't developed that deep yet, so I would hold my opinion on that. I had a feeling I know who Dan really was to Mattie, but I will have to wait until fourth book comes out. I don't know what was the currently status on the book four, though. All I know was that the author is working on it, which was commented six months ago. I have a feeling the fourth book would be the best since each book kept getting better as series go on. Mary sure was a fun character to learn more. She had suffered a lot in a short time, but from that...she had a new talent she hadn't learned or being aware of it yet. I saw a new book that focus on Mary so I definitely will read that as soon as possible. I was still fishy toward Zeke. There was something odd about him. His talent was scary too. I do have a bad feeling about Zeke so I will have

to wait until fourth book as well. It sucks having to wait that long, especially how hooked I was to the Ghost Files series.
