## Customer Reviews

I've purchased quite a few books on angels from in the past few months, one after another, because I kept looking for extra information and each one seemed to either lack certain information or have too little of it. After way too many angel books later, and way too much time and money spent on that stuff ~~~~finally~~~~ I found this book. It is a very, very comprehensive book on angels, how to contact them, (many, many) samples of prayers, angel card readings, raising your

vibration, etc. etc. It is titled "The everything guide..." and it IS the everything guide to angels. This was the best 10 bucks I spent on this particular topic. Highly recommend to anyone interested in learning about angels and how to communicate with them.

Karen's interpretation of the angelic realm is a fantastic read. I couldn't put it down. I read the whole thing in one weekend and am on my second pass getting ready to implement her ideas on cassette so I can use her meditations. I loved the format and it is filled with so many helpful hints on how to manifest your destiny. Thanks and can't wait for the next one.

I have just finished reading this book and highly recommend it. For people on a quest to learn more about angels, this is a must read. Becoming more attuned with the angels through this book has given me great peace of mind. Having this renewed outlook on life has made our home a much happier, relaxed place. Doors are opening for us that I never could have imagined. As Karen says, "my greatest and highest good, better than I could have ever imagined" is coming to fruition. I've not been blest in any material way, yet I feel richer just because I am walking in greater gratitude thanks to the connection that Karen has helped me, and my family, make.

Everything you ever needed or wanted to know...Karen's done a remarkable job making what can be a difficult [and sometimes uncomfortable] subject accessible to anyone. If sceptics can suspend their disbelief for just a bit, they'll find themselves fully engaged, and asking, "What if....?The book gives you a simple, easy way to tap into some really positive energies; gender notwithstanding, one can't help but benefit.It's one of a (very) few nightstand books for me; re-reading a bit of it before going to sleep is a great way to end the day and start the night.One dozes off in a wonderfully peaceful state of being.

This is a fantastic book! I've read many different types of books on spirituality and angels and this book really pulls it all together. The book is well written, and presents interesting facts and keeps the reader engaged. It's clear to see that Ms. Paolino has written this book from experience and wants to share what she has discovered with her readers.I would recommend this book to anyone that wants a deeper understanding and relationship with their angels.

The book reads like this: everything you pray for will always come true and don't worry about taking control of your life because there is an angel waiting around every corner to keep anything that

presents an obstacle out of your way. The idea of angels is treated like fairies who magically make your life great, granting endless wishes. This does a disservice to anyone of faith who needs real soulfood to help cope with real life. Those people don't need rainbows and unicorns blown up their rear ends.

Although I haven't finished the book yet, what I've read I've loved. Ms. Paolino teaches you how to speak to angels, receive help from them and more. A lot of this book agrees with what I'm learning in yoga class but it goes in depth explaining chakras and meditation a lot better.

I find this Book so very Helpful for everyday life, every situation practically you can find an angel for. I wish it was a bit more in depth information and offered more situations, none the less, a great "to go to" book.
