## Customer Reviews

Best series of all time, both the art, the romance, and the fantastical, mysterious plot. You cannot love yaoi, and not read this one. Plus the published versions of this story make so much more sense than the fan-made translations. For one thing, everything is in order, and obviously translated properly. I love this story so much more now that I understand what's going on, and I can't wait for the next volume!

I bought this for myself and I like this book and series. I have read these series and it was great. This is boy on boy. But it was great and I knew what I was getting into. A must read if you like this kind of thing.

It's hard to find yaoi manga with an interesting storyline AND good artwork. This is one of them...

Still waiting for some science fiction yaoi to come out. The only one I've ever read/seen is Missing Road. ;/

~4/5[More of my reviews are available on my blog, Geeky Reading, to which there's a link on my profile.]This series is still very plot-heavy, but still very enjoyable. The problem with Rulca is dealt with in this volume, and the group moves on to entering a new town to move along the main plot. Limris is still up to something, and I don't think I like him. I'm honestly not hugely invested in the larger plot, even if I do find some of it exciting. Meanwhile, Vald is having a hard time accepting his other self, even if he has started using it when he needs to. Then he and Halvir have a fight, and make up with some sex. It's a little adorable, and then very hot, and then sweet again. I just like them, unabashedly. I am reading this solely for them, and I am not ashamed. Which is to say that I will be getting the next volume, hopefully soon, just for them, and I am excited for it.

Oh, Wow, I loved how this one ended. Yamane has done an outstanding job in writing this yaoi manga - in my opinion. Just can't say enough good stuff about the series, only that the couples relationship is intriguing and you want more. Now I have to wait for the next Vol. and I know it has to be as great as the previous volumes.

the art is always amazing, i do think the story is taking an interesting turn by this point, and loyal readers will continue with the series. this book contained some comic relief from the previous book and allowed for further story progression and romantic development between the main couple.

I was so excited when I read on that the English version was coming out! If you've read the first three this one won't disappoint either! Although it's more plot related than sexual but I still enjoyed it greatly!

I love this series. It has its funny parts but the hot parts are sooo sexy. And the havi and Vald love each other so much. I recommend getting all the Crimson Blood books that are out.
