Fairy Tales, Folk Tales & Myths

Age Range: 3 and up

Grade Level: Preschool and up

#### Customer Reviews

This is a review on the stories and the book itself... The pages stick together yes that's true because its silver coated that makes it really nice but they don't rip when you turn the page. Okay this princess book is great for your little princess there are all new stories to read except for three Tangled: Beyound the tower: Its basically the story of the movie so if you seen the movie read the books this isn't new. Then there is Brave: A fateful Adventure: Once again if you seen the movie you seen this story just the short version then there is Aladdin: Against all odds: That's the story with the horse ride its in almost all the princess story books but there were new little mermaid two to be exact two new cinderellas sleeping beauty, snow white, beauty and the beast etc... The pictures are beautiful the coloring is wow just wow an the cover is hard cover as always and the pages are silver

lined which I love because it makes the book look better!!! This is a must have!!!! got this the day it came out thanks to prime which is soooo worth the price since I buy a lot of books, CD's, DVD's. Kindles Instant Video off . So for any age or gender that likes the Disney princess stories this is a must!!!!!Thanks for reading enjoy your copy!!!

I bought this collection for my Princess obsessed three year old, and she LOVES it. The strong "girl power" messages of the stories helps assuage some of the feminist guilt I feel for letting my little girl fall down the Princess rabbit hole. Rapunzel beats Flynn in feats of physical prowess! Belle uses books to make DIY home repairs! Tiana gets a second job to help her save money to buy her dream restaurant (ok, maybe that one is a little heavy handed...why is the black princess the one who has to work two jobs?)! But in general, the stories are sweet and uplifting, and I enjoy reading them to my daughter.

The Art is VERY on model, of good quality, and in a style that matches the movies of the various princesses. It's nice to look at. More then half of the stories are very cute and fun to read (I read them to my 3 year old daughter and she loves them. I like them "Fine" and a few I actually \*like\* more then "fine"). Generally they try to show the princesses in a way that makes them positive role models, which as a mother, I appreciate. The stories are also nice and short, good for kids with shorter attention spans.

Pages and Print300 pages with decently large font and a big space between the lines. There's pictures on every page or a full page picture across from a page of text. The illustrations are fairly standard for disney picture books, but changes styles for a couple of stories. My copy has no silver edging on the pages like other disney storybook collections do. The pages are heavier than standard paper, but probably won't stand up to a lot of abuse. Content the stories tangled - beyond the tower and brave - a fateful adventure are just the stories of the movies. The rest are original stories that bring out the princess' character. Its very pro girl power, and my niece likes it because "they actually do something" (her words). However she was disappointed that there's only one Brave story, and it was the movie story, despite Merida being featured on the cover. There's no Mulan or Pocahontas either.

My daughter loves having me read these stories to her, although some are just a recap of the movies. We tend to talk about things more when we read, so we don't mind the recap. Merida and

Belle are some of our favourite characters, and Belle's story in this one has just the educational element I love - so much can be learned from books and friends. I purchased the e-book to save space when travelling with kids, although I do love a lovely paperback, and this will be a great addition to our trips. Bedtime stories, stories to read when queuing somewhere, even arts&craft inspiration. Love it!

Purchased this for my daughter and she absolutely loves it. The stories are new and are well written. For the stories that I've read, there is always a moral to the story which is nice. The images are well done. The hardcover version is very nice. The cover is nice and thick. The paper appears to be of high quality and is strong. My daughter hasn't ripped a page yet and she's not easy on her books. We purchased this along with Disney Princess Storybook Collection, they go great together and cover the entire princess gamut. Would definitely recommend these books.

Many pictures are only partially rendered in my iPad. Others have illegible tiny print over dark pics. Stories ok, but short and few in number. Many better deals/longer Disney collections available in print.

Just a small collection of a few cute disney princess stories. My daughter liked them for quick bedtime stories. The stories go in this order; Beauty and the Beast, Belle Takes Charge, Tangled, Rapunzel's Challenge, The Little Mermaid, Shark Surprise, Brave, A Fateful Adventure. While the first three stories are new stories the final adventure is the story line from the movie Brave so if you like the movie this is a great way to read it to your kids, still getting the fun from the movie but without having to park the kids in front of the tv.
