Oracle E-Business Suite 12 Human Capital Management Certified Implementation Specialist

Synopsis

The Oracle E-Business Suite (EBS) R12 Human Capital Management (HCM) Specialization is for individuals focused on selling and implementing EBS Human Capital Management modules. The exam targets the intermediate-level implementation team members. Up-to-date training and field experience are recommended. Candidates must also demonstrate understanding of how to use Core HR, Irecruitment, Self-Service HR (SSHR), Talent Management, Learning Management and Payroll. Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. The consultants who will benefit the most from a certification are the ones with typically less than 2 year's project experience. This is not to say that consultants with higher experience will not benefit, but at that level, having a certification matters much less. So if you have little or no Oracle HRMS experience, you should get yourself certified, get some project experience, and then the whole of the Oracle applications World is open for you to explore. Helping you with the first step on you ladder to success is this book! WHY SHOULD YOU BUY THIS BOOK? - Over 160 authentic questions. Similar to the ones you will get on the actual test. - ALL questions are multiple choice format, testing the same concepts that will be tested in Your exam. - The authors are themselves Oracle experts and have themselves cleared this test. - There is NO other book in the market for the Oracle HRMS certification test.
