Beneath The Blackberry Moon Boxed Set: Christian Native American Historical (Creek Country Saga)

Synopsis

Beneath the Blackberry Moon Boxed Set includes Parts 1-3 of this first set in the Creek Country Saga plus the novella-length compilation of deleted scenes, The Untold Stories. Adela McGirth has never feared her neighbors, the Creek Indians, but a suspicious encounter with a steely eyed warrior shakes her confidence. Her dread soon becomes reality, but no fort is strong enough to hold off a party of warriors who fear nothing but the loss of their ancient ways. Big Warrior Totka Hadjo, a Red Stick bound by honor to preserve his heritage, enters his toughest battles yet—the fight for love, the invasion of fear, and the inescapable ashes of each. The war was simpler before his enemy became a beautiful face with a gentle warrior's spirit he cannot resist. War, captivity, hunger that will not be denied. And a blackberry moon with enough pull to endure the test of time.

Beneath the Blackberry Moon, Part 1, written by April W. Gardner, is the first book I've read by this author and is an absolute MUST read!!!! just love historical romantic books, but this is one full of history and passion that is so intense that you just cannot put it down! The setting is during the

Creek War's and the white settlers against the Indian's of that territory. Gardner's ability to place me within the setting and the movements and emotions of the moments in time is phenomenal! I absolutely loved the passion that is expressed throughout the book; whether it is the native-American love for their land or the frontier people for their love for their land or the passion between the peoples....so intense, so romantic, so no-I-cannot-put-this-book-down kind of read! I cannot wait to start the next book of this series! Beneath the Blackberry Moon Part 2: the Sacred Writings, written by April W. Gardner, is the second book I've read by this author and just as exciting as the first of this series. I can honestly say, I'm not a crier I don't usually cry while reading my books BUT this one I was totally crying over! Part 2 has a lot of information in it that takes you places in the beginning of the book that aren't expected and yet needed for the completion of the book so stick with it. Then in the middle of the book the emotions are full blown. Gardner takes the passion and emotions and just fills each page. I love her ability to intermix history and fiction and the way that she places Jesus as the main reason for this book. Oh it's a page turner! If you're into passion, true deep love, native American history and biblical foundations this book is for you!! The Ebony Cloak, part 3 of the Beneath the Blackberry Moon, is written by April Gardner.
