I love this book! The methodology for spelling is excellent! The illustrations are adorable! I want to color it! :)I have reviewed quite a few of the Thinking Tree's books by receiving the book at a discount, but I am here to tell you it has no bearing on my reviews. I bought this one and several others to use with my children and I LOVE them!!! See my video for details!

This is the cutest spelling book ever created. This is a nice think activity book. Did I say that it is SOOOO CUTE!

I personally think this book is wonderful! I've bought several of their publications hoping it would catch on since I love the idea so much. My kids... not so much. My 8 year old said it didn't help it at all with spelling and he didn't want to do it anymore since it isn't helping. So I love it, my son doesn't!

This book is great for not only a homeschooler but for any one that wants to work on their spelling. It

covers months, seasons, and words that goes along with these such as frost and seagull. My son is almost 9. He has had a struggle with reading and spelling and has been reluctant with both. This has gotten him more interested and excited about learning. As he gets better at spelling, his confidence reading has grown. The book is a bit girly but we get around this by having him doodle on the illustrations into more boyish illustrations. This has also served the purpose of having him to slow down and take his time which has helped his penmanship. There is no right or wrong way to use the book. You can do what works best for your child. We go over the words to see what he knows. He then colors in the words, each word a different color, or whatever activity is on the pages. We then go over the words again and he practices writing the misspelled words or writing a short story using them. There is also a design your own calendar in the back which has been a huge hit with my son. I highly recommend this book. The illustrations are cute and fun to color or doodle on. The way the book is set up, it makes mastering the words more simple and fun.

The Four Season Spelling Time: Spelling Poems, Art & Logic Games, Fun Spelling Practice Pages, What Words Can You Spell, Creative Writing Prompts, Draw Each Lesson, Make Your Own Calendar. This is absolutely wonderful! I am so excited for everyone to use this! Thank-you Sarah Janisse Brown for another Fun Spelling Journal.

My daughter needed a boost in her writing/spelling so I purchased this to use in our homeschool. She really enjoys the coloring pages but the spaces were very tiny for her at first. If your child struggles to write small you may want to hold off on this book for awhile. She is becoming a better speller and writer but this book is not a spelling program by itself. You will still need drills and additional practice.

Very cute but ineffective for my son. He couldn't remain focused on the actual assignment because he was too busy coloring. We went back to a more traditional approach and it's much easier/faster for him to get through his spelling words. If your little one isn't distracted easily this might be a good fit for him/her.

My 7 year old daughter is delighted with this book. She loves the pictures. I am excited how this will add to her vocabulary as well. I gave 4 stars, but only because I also purchased one for my 8 year old son, and he thought it was girly, and does not want to use it at all. I think perhaps the cover or description of this product should recommend it for girls.
