Education & Reference > Math > Arithmetic #4269 inÂ Books > Textbooks

Grade Level: 4 and up

Customer Reviews

Exactly what it was supposed to be. It is nice to have a hard copy just in case we cannot connect to the internet to access the mobile version.

I guess I wasn't paying enough attention when I bought this piece of junk. Written in worn out torn pages of junk.Going in the trash.

This product arrived on time. It is in a very good condition. I liked it.

This will surely help my granddaughter through the summer with her tutor and next school term, as she enters the 4th grade

Great book, a lot of information according to the grade level.

I like it.
