This is a fun, interesting book of a California girl (whose parents were born in Vietnam, but now both

have successful careers in the US) who's required to visit Vietnam with her aging grandmother to investigate what may have happened to her grandfather who was lost in the war. Although that line draws the plot along, it's really a book about a girl going somewhere new, making friends and having adventures, rather than a story about adults or grandparents. It's fun, interesting, and easy to relate to--it accurately reflects the way most of us who were born in the U.S. would likely feel upon traveling to a new country for an extended period of time--awkward and annoved at first, then slowly beginning to appreciate the various angles of living somewhere new. But this happens in a way that's fun and interesting rather than dry and lecture-y (with the protagonist herself rolling her eyes or saying "whatever" precisely at the moment that we ourselves would likely feel that way when an authority figure offers too much instruction). As I reader, I really enjoyed the story--fun, touching, exciting, adventurous. As someone who was born in the US and lived overseas as a child, it has a very realistic feel to it. As someone who enjoys traveling a lot (spending 7+ days in each location rather than taking a whirlwind approach to my travels), it made me feel like I was actually there, and excited to perhaps visit sometime (even despite the drawbacks she mentions). As a parent, I like that it's a great way to introduce my kids to a new culture in a way that will make them interested rather than bored.

"Listen, Slowly" is a novel of guiet, powerful and emotional personal growth. Thanhha Lai has written a book that highlights the culture and customs of Vietnam as seen through the eyes of Mai, a young first-generation Californian. Mai is a twelve-year old California girl. Her father, now a doctor, was evacuated as a child from Saigon two days before its fall; her mother, who is an attorney, was a boat-person. Neither will talk to Mai about their memories of Vietnam "...random roots are encouraged but specific roots are off-limits ..." Mai's grandmother Ba lives with the family. Her one desire is to return to Vietnam to discover the fate of her husband, captured during the Vietnam War. While her physician father performs medical procedures in rural Vietnam, a reluctant, disgruntled Mai must assume the responsibility, as Ba waits to meet the man who guarded Mai's grandfather, of being her grandmother's companion. As the days pass, Mai begins to understand and to appreciate the people and the culture of her ancestral homeland. Characters throughout "Listen, Slowly" are very appealing. Mai is a typical preteen, complete with her eye-rolling and exasperated view of parents. "...I guess parents embarrass their children everywhere in the world ..." Even her view of Vietnam and the Vietnamese people is colored by her pre-teen attitudes. "So many good habits in one population are really annoying ... ""Listen, Slowly" is filled with gentle humor and deep familial love. Thanhha Lai realistically captures the nuances of culture and language, the characters'

personalities and emotional reactions, and the innate strength of individuals who have one, overwhelming goal to achieve.
