Land Of Promise (Counter-Caliphate Chronicles Series Book 1)

Synopsis

From the New York Times Bestselling author of Patriots, James Wesley, Rawles, comes LAND OF PROMISE, a bold piece of speculative fiction that posits the establishment of a Christian nation of refuge, in response to the establishment of a global Islamic Caliphate in the near future. Launched by a pair of free-thinking venture capitalists and an Israeli art dealer, the fictional Ilemi Republic is carved out of a disputed border region between Kenya and South Sudan, with the consent of the governments of these two neighboring nations. The fledgling Ilemi Republic is a nation of firsts in modern history: The first nation as a dedicated place of refuge for Christians and Messianic Jews; The first nation with absolutely no taxes or levies of any kind; The first nation with no licenses or permits; The first nation with minimalist government; The first nation to reject fiat currency and establish a tri-metallic currency (gold, silver, and platinum); The first nation to have a self-policing citizenry with a citizen's militia--and hence no standing army and no police force; The first nation with a near absolute right to keep and bear arms, where only weapons of mass destruction are restricted from private ownership; and the first nation without a parliament or congress, where all decisions are made by public referendum. "In Land of Promise, [Jim Rawles] crafts an exception to the rule: He speculates on proactive efforts to carve out a liberty lifeboat on Earth. It is the last refuge of free people in charge of their own lives. In every other place on Earth that man has put down roots, the usual suspects come out of the woodwork to offer advice on how to run his life and eventually develop systems that strangle that very life out of them. Some of these have been much worse than others as witnessed in the blood-soaked twentieth century." - Bill Buppert, ZeroGov Forums

Praise for James Wesley, Rawles: "Rawles is an amazingly gifted author who has singlehandedly reignited the postapocalyptic thriller. Survivors is an instant classic." • "Brad Thor, #1 New York Times bestselling author" "Rawles' Survivors is well worth reading. . . well-written and informative, and speaks with an honesty and bluntness often missing from the policy prognostications of the political elite." • "The New American

Customer Reviews

In 1933 we had 'Lost Horizon' (Shangra'La) by Hilton In 1974 we had 'Ecotopia' by Callenbach In 2015 we have 'Land of Promise' by Rawles Each of the these stories center around finding and/or establishing a home or place of peace without outside influence or distractions. Unfortunately, as in each of these stories, that is almost impossible to do, especially when your government(s) and or, as in this case, Islamic terrorism attempts to prevent that. When a group of both young and older Christians from various ethnic backgrounds search for a place of personal and religious freedom they settle in central Africa to start a new life and establish a free society of Christians. They start with a limited central government, no fiat monies (gold and silver backed currency only), freedom to own any type of firearm(s) or weapon(s) with the exception of WMD's and most of all freedom of religion. There is a group of agnostics (if you will), who are welcomed and live within the borders of the new country and are allies with the new government and its citizens. But what unfolds inside the pages of 'Land of Promise' are the trials and tribulations of establishing a new country, not unlike

those of the pilgrims of early America, the Jews of early Israel or those of many Christian nations attempting to establish themselves in modern Africa (as noted in the story). History always seems to repeat itself and it is no different here in this story of religious persecution.
