Customer Reviews

So far this has been a fine read. I would recommend this for either right- before- bed, or on the beach, a quiet afternoon, etc. There are quite a few dynamic features to the story line. A few twists and turns, and the characters are pretty well developed. There are a few parts that could be edited slightly better, but I do know most authors on here prefer for their readers to help them out in this aspect. It was not hard reading by any means, but it was also not an elementary level book. Be prepared for some love scenes. But honestly, sometimes they do add to the storyline, right? I hope to either purchase more in this series (if there is one) or get the author motivated to write more! Not that this was left with just a cliffhanger or anything, I have just loved how the storyline was developed, and would love to know where this could head into the future. Knowing how the characters have developed, interacted, and have grown leaves me with a lot of hope for more. I always love series/ books where there is a spin- off into a similar setting, but with acquaintances that the characters had, or will have. Overall, this is a great value and I would highly recommend it. It is a great value for the price, and it simply cannot be beat! I will be purchasing more from this author in the future, and look forward to new releases.

Each of the books in the series is okay but not anything really special. They were entertaining enough that I read and finished them all but not enough to inspire any strong feelings or make my reread list. I can't really think of anything to praise or complain about.

Now that we know more about Jace, I feel so sorry for him. Having a girlfriend like Bayleigh who is this insanely insecure and jealous? It is madness. Run Jace run.... This girl spends so much time being jealous it is sick. Don't like it at all.

Well I choose this a 5 star rating because it was a very interesting book. I could not stop reading it . My favorite part in this book is that when Bayliegh finally got what she was trying to say to her boyfriend. I recommend that everyone reads this book.

this book is really short and starts at a weird places not where unplugged ended. that being said it is still a cute book with a good story line. I would be mortified if I walked in on my mom like Bailey did

My 11 year old daughter got this book without my knowledge! Shame on ME! What an awful book that has scenes that come right out of the Godfather with Sonny in the closet during the wedding doing something very naughty! Not appropriate for those under the age of 18.

This book by Amy Sparling takes you on an adventure as you watch Jace and Bayleigh take it to the next level in their relationship. Amy truly shows the trustworthy in Jace and the true colors within Bayleigh. Once reaching the second cover you will be sucked into a teenage love life

This book was a very great book. I love how she gets so jealous but knows that he loves her. I would recommend this book to the romantic novel loving people. I chose my rating because this book was just overly amazing.
