Customer Reviews

Iâ ™m a big fan of new adult and college romance novels so this book was right up my alley. As I got to know Lidia and Jack I really felt for them and their situation, break-ups suck and often you find yourself longing for what you once had. Their plan to win their exes back is fool-proof, except they werenâ ™t counting on something called feelingsâ |I really enjoyed this book! It made me laugh out loud, roll my eyes (in the â œoh goodness lâ ™ve been thereâ • way) and I genuinely liked the characters and was rooting for them. It was sweet to watch their friendship deepen and blossom into love. It was a chance for a new beginning for these good friends. Iâ ™II definitely recommend this book to my friends.

Growing in Love is a beautiful love story. Author Paige Powers delivers a heartfelt and emotional adventure of two young lovers willing to take a chance. When Jack and Lidia decide to make their exes jealous they discover they may be better suited for each other. Soon they will have to decide whether or not to take a leap of love and explore a real relationship with each other. This is an excellent choice in the college romance young adult genre. The characters are fully developed and easy to fall in love and root for. I highly recommend it!

The characters and the story were really good. Unfortunately I am not happy with this new trend that mixes the actions of one character with the thoughts or dialog of another. I was constantly confused about who was saying or thinking what. I have been told this is the new NEW YORK style and if that is the truth, I have a feeling I am going to part ways with things coming out of New York.

I loved this book. Always love coming of age books, and this was no exception. What got to me was the maturity of the two protagonists - they could cook, clean, emote, drive, be natural, and still exhibit the child-like (nay, teenage) tendencies where needed. What a package! wow! But - I loved the story. Took away one star coz it took me two or three readings end to end to figure out who said what.

As always, Paige Powers will not let you down. She keeps making another romance books, especially on Valentine's Day like around this time. The title is Growing in Love. Another great and beautiful love story by her. This one is really a great choice for young adult. The story is very awesome and it's so interesting to read. I'd definitely recommend this book!!

This is such a touching love story it truly does tug a bit at your heart strings. Paige Powers has delivered another emotional roller coaster to cuddle up to and pass an afternoon with. Highly recommend for all the romance lovers.

A sweet romance about teenagers in love - and the associated issues related to first love, first broken heart, rebellion, tantrums, it had all the necessary ingredients in the right quantities. 5-Stars all the way! Highly recommended read!

I can relate this story, when I was teenager, I don't have experienced in having a fake relationship.I love this story, it feels good and remind me to my old days. Fallin in love to your fake lovers is good.
