Gone Without A Trace (Logan Point Book #3): A Novel

Synopsis

The past is repeating itself--and time is running out! It's been more than two years since homicide detective Livy Reynolds's cousin disappeared from Logan Point. Unlike most people in her hometown, Livy has never believed that Robyn left voluntarily. When Dallas private investigator Alex Jennings contacts her concerning a senator's missing granddaughter who was last seen in Logan Point, Livy notices eerie similarities between the two disappearances. With self-doubt plaguing her and an almost instant dislike of the self-assured PI, she's finding this investigation an uphill battle. But with the prospect of finding her cousin on the horizon, she'll have to find a way to work with Alex--before it's too late. Award-winning author Patricia Bradley keeps you on the edge of your seat with a case--and a relationship--that is anything but certain. "Patricia Bradley has hit a home run. The suspense is high, the romance is sweet, and the villain is one you want to see caught and brought to justice. *Gone without a Trace*, a novel of forgiveness and finding one's place in the world, brings home the point that while not everything in life may go the way you want, God is still in control. Can't wait for the next book!"--Lynette Eason, bestselling, award-winning author of the *Hidden Identity* series Patricia Bradley is the winner of a 2012 Daphne du Maurier Award and a 2012 Touched by Love Award and was also a finalist for the 2012 Genesis Award. The author of *Shadows of the Past* and *A Promise to Protect*, she is a member of American Christian Fiction Writers and Romance Writers of America. Bradley makes her home in Mississippi.

Customer Reviews

Finally! The last few books I have read I either didn't finish or I was left dissatisfied after reading them. I was getting to where I didn't even want to read. THANK YOU, Patricia Bradley, for turning that back around for me. I absolutely LOVED this book and couldn't put it down. Livvy is a cop, and early on lets her partner down. She can't concentrate on the job due to flashbacks of shooting a teenage boy who had a toy gun. She takes a leave of absence and decides to help a private investigator find a missing woman, whose disappearance may be linked to Livvy's cousin, Robyn, who has been missing for over two years. Is Livvy truly up to working a missing persons case and does she have what it takes to defend herself or the pi? The same pi that she doesn't like in the beginning, but can't seem to fight the feelings she is developing for him. This book is full of just the right amount of suspense, mystery, and romance. The author leaves bread crumbs along the way as to finding the missing women and also as to who their kidnapper is. Unexpected twists happen along the way that kept drawing me in and making it so that I was up in the wee hours of the morning reading. I would like to say I figured out who the kidnapper was, but I can only say that I had narrowed it down between a few suspects. This is a book I just couldn't put down. Although it is the third book in Bradley's Logan Point series, it can easily be read as a stand alone. I have very much enjoyed all three of them, but this one is my favorite. If you haven't read the first two, I do recommend them, but it is not necessary to read them in order. I was given this book by the publisher in exchange for my honest review.

The past is repeating itself--and time is running out! It's been more than two years since homicide detective Livy Reynolds's cousin disappeared from Logan Point. Unlike most people in her hometown, Livy has never believed that Robyn left voluntarily. When Dallas private investigator Alex Jennings contacts her concerning a senator's missing granddaughter who was last seen in Logan Point, Livy notices eerie similarities between the two disappearances. With self-doubt plaguing her and an almost instant dislike of the self-assured PI, she's finding this investigation an uphill battle. But with the prospect of finding her cousin on the horizon, she'll have to find a way to work with Alex--before it's too late. This is the third book in the Logan Point series by Patricia Bradley. It is not

necessary to read the other two books to enjoy this one. I did find this book to be a little slower than the other two books. There just didn't seem to be as much action. All that being said, I did enjoy the book and would recommend it to others. Spoiler Alert: The character I liked the best was Robyn. She transformed herself from a wimpy whiny person to a self-assured strong woman. I would have had trouble staying away from my daughter as long as she did. But if you are afraid for their life I guess you can do just about anything. I was given this by the publisher for an honest review. I was not compensated in any way

Robyn & Chase's marriage was becoming stressful. The day she disappeared, Robyn & Chase had fought again about her quitting the waitress job. What happened to her & why was she gone for 30 months with hardly a word? Chase became angry & their young daughter, Abby, was lost without her mommy. Livy is a detective near her hometown & she's also Robyn's cousin. Because of her actions, she was put on leave so she went home to stay with her Aunt Beth. Alex's father & grandfather assume he'll take the bar exam & join their practice in Texas. Alex has no desire to become a lawyer, even though he was pressured into getting a law degree. He joined a private investigating company & this job really fulfills him by helping others in trouble. When he's hired to find Samantha Jo, who worked at the same restaurant as Robyn, Alex meets Livy. They realize several cases of missing women are connected & join forces with the sheriff. Who's taking all these women & who is this man? Read how Robyn comes home under cover to help. This is a wonderful story of suspense & budding romance. Hopefully, there's a 4th book in this series!

This novel is of the "romance mystery" category, yet the sleepy time south (Mississippi, Tennessee mostly) police missed so many leads, I wonder if the author knows how thorough police typically investigate crimes. The chief sheriff just had 24-hour police surveillance for a victim in Series #2, yet slacked off leading to a repeat kidnapping of the main character!? The victim's and the sheriff's kids have seen the possible perpetrator, and though they've narrowed their search down to three suspects, they didn't think to show the kids their pictures easily available on DMV records? I hope Series #4 is more cohesive.

Waitresses are disappearing; some of them are dying, others are being attacked and released. Alex is hired to find one of the missing and is immediately attracted to and working with Livy, a detective on leave. Naturally, this is the love interest built around the finding of a kidnapper. Robyn has been missing for a few years and no one actively looks for her because she asked them not to...hmmmm.

But, she begins to miss her daughter and has to see her and, of course, Livy becomes suspicious of the unknown woman in the park. This leads to them all setting up a sting to flush out the kidnapper and to find a murderer. Good wholesome reading.
