Super fun and beautifully presented! Love love love this amazing educational addition to our library. Kids are in love too. We strive to expose our children to different cultures and this book inspires us to travel! It's presented in such an appealing manner with gorgeous illustrations and little blurbs that highlight aspects of the city. It adds a little humor that had us chuckling as we read through it. We love to read books before bed and it's a book you would read 1-2 pages a night so you can enjoy looking at the pictures and talking about the different cultural highlights.

Absolutely loved this book for myself and my child. My little guy is only 19 months old but loves identifying objects that he recognizes on each page. While he's too young to really understand and appreciate the book, he loves the illustrations and I love looking through it with him. It's far more enjoyable and entertaining for me to read than many children's books and it holds his interest well.

This book is sure to become a family favorite that we'll enjoy for many years to come!

This is a beautifully illustrated book that presents the most popular attractions in 30 major cities around the globe. This is a great conversation piece for our family! I even learned a thing or two while reading it with my daughter!! This is a great gift for a future world traveler!!!

This oversized book features 30 illustrated city maps from all around the world. The maps highlight interesting places and facts about each city and is a great jumping off point for talking about other places and cultures. A great addition to any library!
